

For consignments of lithium ion or lithium metal or sodium ion batteries contained in or packed with equipment

Air Waybill Number:	HAWB Number:	Origin:
Shipper:		Destination:

1 I CERTIFY that this consignment does not contain any of the following forbidden items:

- Recalled, damaged or defective cells and battery packs;
- Shipments containing only cells or battery packs;
- Used and/or refurbished lithium or sodium batteries packed with or contained in equipment packaged in an overpack.

NOTE: Consignments of two packages or less where each package contains no more than four cells or two batteries installed in equipment compliant with the Section II limits (watt hours or grams) or packages containing only button cell batteries installed in equipment (including circuit boards) do not require this document or the battery mark and may be tendered as non-dangerous goods. (See IATA Packing Instruction 967 or 970 or 978.)

2 This shipment contains **CELLS or BATTERY PACKS** in the following configuration (check all applicable boxes):

PI966 Lithium ION Batteries **Packed with Equipment**
UN 3481 Section II

PI977 Sodium ION Batteries **Packed with Equipment**
UN 3552 Section II

Cells or battery packs contained in a package may or may not be installed in the equipment. The maximum number of cells or battery packs allowed in each package is the minimum number to power the device, plus two spare sets. Cells or battery packs with a Watt-hour rating in excess of 2.7 Wh must be offered for transport at a state charge (SoC) not exceeding 30% of their rated capacity. **Select Applicable:**

Cells: Not more than 20 Watt hours (Wh) per cell
Battery Packs: Not more than 100 Watt hours (Wh) per pack

PI967 Lithium ION Batteries **Contained in Equipment**
UN 3481 Section II

PI978 Sodium ION Batteries **Contained in Equipment**
UN 3552 Section II

Only cells or battery packs installed in equipment that are required to power the device are permitted. **Select applicable:**

Cells: Not more than 20 Watt hours (Wh) per cell
Battery Packs: Not more than 100 Watt hours (Wh) per pack

PI969 Lithium METAL Batteries **Packed with Equipment**
UN 3091 Section II

Cells or batteries contained in a package may or may not be installed in the equipment. The maximum number of cells or battery packs in each package is the minimum number required to power the device, plus two spare sets. **Select applicable:**

Cells: Each cell does not contain more than 1 g of lithium metal
Battery Packs: Each pack does not contain more than 2 g of lithium metal

PI970 Lithium METAL Batteries **Contained in Equipment**
UN 3091 Section II

Only cells or battery packs installed in equipment that are required to power the device are permitted. **Select applicable:**

Cells: Not more than 1 g of lithium metal per cell
Battery Packs: Not more than 2 g of lithium metal per pack

3 ON THE AIR WAYBILL, INDICATE THE FOLLOWING:
A) The Air Waybill statement
B) The number of packages with the battery mark, unless these are the only packages within the consignment.

4 I UNDERSTAND THAT EACH INDIVIDUAL PACKAGE (whether or not it's contained within an overpack):

- MUST NOT contain more than 5 kg of lithium or sodium cells or battery packs.
- Must be properly identified with a battery mark.

I declare that the contents of this consignment have been properly prepared, and are packaged, marked, and labeled correctly, and are in all respects in proper condition for air transport. All regulatory requirements have been met.
